Understanding Vaccinations and your pet

2 hour information session about making educated choices for your pet

YOUR PRESENTER

Dr Kelly Halls is principal and business owner of Bentons Road Veterinary Clinic in Mornington. She has been a practicing veterinarian since 2002, helping so many families with pet care and helping them make educated choices for the care and lifestyles they are providing to their pets.

Dr Kelly is an advocate for holistic and balanced healthcare and well-known within the veterinary industry. Using the latest scientific research and evidence based information, she is a wealth of information on this topic.

THE SESSION

This session is sure to be jam packed full of information about vaccinations, veterinary protocols and how vaccines may affect your dog. She will be touching on some topics that we, as educated pet owners, may have many questions about:

- Why vaccination of puppies and kittens are necessary
- Can 'over-vaccinating' be harmful?
- How we can ensure adequate immunity in dogs
- Duration of immunity studies on 'C3' and 'F3' vaccines
- Protocols used by Dr Kelly for patients who regularly board
- Legislations around vaccinations
- Behaviour considerations for titre testing

WHO SHOULD COME

We look forward to having some valid information about this topic presented and how this applies to you and your pet. Whether you are a pet enthusiast or a professional working at a training facility or dog daycare there is sure to be something in this session for you!
